## Containers

### Flatracks

Flatracks are especially suited to heavy loads or cargo that needs loading from the top or sides, such as pipes and machinery. OOCL offers collapsible and non-collapsible containers with or without walls. Manufactured from steel, flatrack containers come in 20 ft and 40 ft sizes.

**Flatracks 20' x 8' x 8'6"**

		Steel	
		Millimetres	Feet
<b>Internal Dimensions</b>	<b>Length</b>	5,618	18'5"
	<b>Width</b>	2,438	7'11"
	<b>Height (Unfolded)</b>	2,233	7'3.5"
	<b>Height (Folded)</b>	420	1'4.6"
		Kilograms	Pounds
<b>Weight</b>	<b>Max Gross</b>	28,950	63,820
	<b>Tare</b>	2,950	6,500
	<b>Max Payload</b>	26,000	57,320
		Cube Metres	Cube Feet
<b>Internal Capacity</b>		30.5	1,079

[Note: If overall width, inclusive of packing, securing and lashing materials, does not exceed 2,438mm, the cargo will be treated as 'in-gauge' in width.]

**Flatracks 40' x 8' x 8'6"**

		Steel	
		Millimetres	Feet
<b>Internal Dimensions</b>	<b>Length</b>	11,652	38'2.5"
	<b>Width</b>	2,438	7'11"
	<b>Height (Unfolded)</b>	1,955	6'4.5"
	<b>Height (Folded)</b>	570	1'10.4"
		Kilograms	Pounds
<b>Weight</b>	<b>Max Gross</b>	43,530	95,965
	<b>Tare</b>	5,530	12,190
	<b>Max Payload</b>	38,000	83,775

	Cube Metres	Cube Feet
<b>Internal Capacity</b>	55.5	1,958

[Note: If overall width, inclusive of packing, securing and lashing materials does not exceed 2,438mm, the cargo will be treated as 'in-gauge' in width.]

### Flatracks (FQ) 40'x 8'x 9'6"

		Steel	
		Millimetres	Feet
<b>Internal Dimensions</b>	<b>Length</b>	11,652	38'3"
	<b>Width</b>	2,438	8'
	<b>Height (Unfolded)</b>	2,264	7'5"
	<b>Height (Folded)</b>	650	2'2"
		Kilograms	Pounds
<b>Weight</b>	<b>Max Gross</b>	52,500	115,743
	<b>Tare</b>	5,200	11,464
	<b>Max Payload</b>	47,300	104,279

[Note: If overall width, inclusive of packing, securing and lashing materials, does not exceed 2,438mm, the cargo will be treated as 'in-gauge' in width.]
